Skills

- Languages: **Java, HTML, CSS, JavaScript, SQL**
- Database Management: **MySQL, MongoDB, Firebase**
- Technologies: **React.js, Node.js, Redux, TailwindCSS, Material UI, Bootstrap, REST APIs, AWS**
- Version Control: **Git & GitHub**

Work Experience

Software Developer Intern **UK Bio Organic Industries** **Jan 2023 - June 2023**

- Increased sales team efficiency by 25% and reduced lead response time by 40% through designing and building an intuitive, data-driven CRM platform using React, HTML, CSS, MySQL, and Node.js
- Crafted a mobile-friendly interface for seamless access across devices, improving user experience.
- Optimized workflow by automating lead capture and follow-up tasks, saving over 500 hours annually.
- Implemented custom reports & dashboards, boosting management visibility and strategic decision-making.

Projects

E-commerce Webapp | JavaScript, NodeJS, Firebase

- Built a dynamic E-commerce WebApp for eyewear & watches, enabling seamless product purchasing.
- Enhanced customer experience with intuitive UI/UX and secure payment integration, streamlining the shopping journey from product discovery to checkout.

Weather Application | React, JavaScript

- Crafted a dynamic React weather app utilizing OpenWeatherMap API, showcasing real-time weather data and forecasts for multiple locations.
- Enhanced user experience with intuitive interface, interactive map, and customizable features, delivering personalized weather insights at a glance.

Railway Reservation System | HTML, CSS, JS, Node.js, MySQL

- Built a user-friendly railway reservation platform featuring real-time availability, dynamic pricing, secure authentication, and a seamless Paytm payment gateway.
- Ensured accessibility and consistent experience across devices through responsive design, catering to a diverse user base and optimizing usability on the go.

Education

Bachelor of Technology	Vishwakarma Institute of Technology	8.83	2019 - 2023
H. S. C.	Shri Shivaji Junior College	86.4%	2017 - 2019
S. S. C.	Gandhi Vidyalaya	96.4%	2016 - 2017

Achievement / Extra Curricular

- **300+ Problems** solved across [Leetcode](#), [HackerRank](#) and [GeeksforGeeks](#).
- **Headed the National Level Event** named Atmabodh associated with VIT Socials.
- Secured rank in the **top 2%** among 4,10,000 students in MHT-CET 2019 engineering entrance exam.
- Ranked among the **top 10 teams** in the intra-college hackathon for Smart India Hackathon 2022.
- Served as Multimedia & Design Secretary for the **Entrepreneurship Development Cell** and the **Social Welfare & Development committee**.
